Repealed June 30, 1887.

SECTION 1. *Be it enacted by the people of the State of Illinois, represented in the General Assembly,* That every person practicing medicine, in any of its departments, shall possess the qualifications required by this act. If a graduate in medicine, he shall present his diploma to the State Board of Health, if such Board of Health shall be established by law, or Board of Examiners herein named, for verification as to its genuineness. If the diploma is found genuine, and if the person named therein be the person claiming and presenting the same, the State Board of Health, if such Board of Health shall be established by law, or the Board of Examiners, shall issue its certificate to that effect, signed by all of the members thereof, and such diploma and certificate shall be conclusive as to the right of the lawful holder of the same to practice medicine in this State. If not a graduate, the person practicing medicine in this State shall present himself before said Board, and submit himself to such examinations as the said Board shall require; and, if the examination be satisfactory to the examiners, the said Board shall issue its certificate in accordance with the facts, and the lawful holder of such certificate shall be entitled to all the rights and privileges herein mentioned.

SEC. 2. In case a State Board of Health shall not be established by law, then each State Medical Society incorporated and in active existence on the first day of July, eighteen hundred and seventy-seven, whose members are required to possess diplomas or license from some legally chartered medical institution in good standing, shall appoint, annually, a Board of Examiners consisting of seven members, who shall hold their office for one year, and until their successors shall be chosen. The examiners so appointed shall go before a county judge and make oath that they are regular graduates, or licentiates, and that they will faithfully perform the duties of their office. Vacancies occurring in a Board of Examiners shall be filled by the society appointing it by the selection of alternates, or otherwise.

SEC. 3. The State Board of Health, if such Board of Health shall be established by law, or Board of Examiners, shall organize within three months after the passage of this act, they shall procure a seal, and shall receive through their secretary applications for certificates and examinations, the president of each Board shall have authority to administer oaths, and the Board take testimony in all matters relating to their duties; they shall issue certificates to all who furnish satisfactory proof of having received diplomas, or licenses from legally chartered medical institutions in good standing; they shall prepare two forms of certificates, one for persons in possession of diplomas or licenses, the other for candidates examined by the Board; they shall furnish to the county clerks of the several counties a list of all persons receiving certificates. In selecting places to hold their meetings they shall, as far as is reasonable, accommodate applicants residing in different sections of the state, and due notice shall be published of all their meetings. Certificates shall be signed by all the members of the Board granting them, and shall indicate the medical society to which the Examining Board is attached.

SEC. 4. Said State Board of Health, if such Board of Health shall be established by law, or Board of Examiners, shall examine diplomas as to their genuineness, and if the diploma shall be found genuine as represented, the Secretary of the State Board of Health, if such Board of Health shall be established by law, or Board of Examiners, shall receive a fee of one dollar from each graduate or licentiate, and no further charge shall be made to the applicants; but if it be found to be fraudulent, or not lawfully owned by the possessor, the board shall be entitled to charge and collect twenty dollars of the applicant presenting such diploma. The verification of the diploma shall consist in the affidavit of the holder and applicant that he is the lawful possessor of the same, and that he is the person therein named. Such affidavit may be taken before any person authorized to administer oaths, and the same shall be attested under the hand and official seal of such officer, if he have a seal. Graduates may present their diplomas and affidavits as provided in this act. by letter or by proxy, and the State Board of Health, if such Board of Health shall be established by law, or Board of Examiners, shall issue its certificate the same as though the owner of the diploma was present.

The fees received by the Board shall be paid into the treasury of the medical society by which the Board shall have been appointed, and the expenses and compensation of the Board shall be subject to arrangement with the society.

SEC. 9. Examinations may be made in whole, or in part in writing, and shall be of an elementary and practical character, but sufficiently strict to test the qualifications of the candidate as a practitioner.

SEC. 10. The State Board of Health, if such Board of Health shall be established by law, or Board of Examiners, may refuse certificates to individuals guilty of unprofessional or dishonorable conduct, and they may revoke certificates for like causes. SEC. 7. DEFINITION OF THIS ACT.] Any person shall be regarded as practicing medicine, within the meaning of this act, who shall treat or profess to treat, operate on or prescribe for any physical ailment or any physical injury to or deformity of another: *Provided*, that nothing in this section shall be construed to apply to the administration of domestic or family remedies in cases of emergency, or to the laws regulating the practice of dentistry or of pharmacy. And this act shall not apply to surgeons of the United States army, navy or marine hospital service in the discharge of their official duties, or to any person who ministers to or treats the sick or suffering by mental or spiritual means, without the use of any drug or material remedy.

SEC. 10. ENFORCING PENALTIES—APPEALS.] Upon conviction of either of the offenses mentioned in this act the court shall, as a part of the judgment, order that the defendant be committed to the common jail of the county until the fine and costs are paid, and upon failure to pay the same immediately the defendant shall be committed under said order for first offense not more than thirty (30) days, and for each subsequent offense not more than ninety (90) days: *Provided*, that either party may appeal in the same time and manner as appeals may be taken in other cases, except that where an appeal is prayed in behalf of the people, no appeal bond shall be required to be filed, whether the appeal be from the justice of the peace or from the county or circuit courts, or from the appellate court. INFORMATION FOR APPLICANTS FOR STATE CERTIFICATE.

State Certificates authorizing the practice of medicine and surgery in the State of Illinois are issued by the State Board of Health on complying with the following requirements, based upon the act to regulate the practice of medicine in the State of Illinois, in force July 1, 1899.

The applicant must present to the State Board of Health for verification, at the office of the Secretary, in Springfield, or in Chicago at the time of the examination, the diploma of a legally chartered medical institution in good standing. The diploma, when sent to Springfield, should be forwarded, prepaid, by express or registered mail. If by mail, letter postage must be affixed to the package.

The affidavit must show, also, the number of years the applicant has studied medicine, including the time spent in attendance at medical colleges.

The affidavit must be accompanied by letters of recommendation with regard to the moral and professional character of the applicant from at least two reputable medical men who live in Illinois, or, if from non-residents of the State, such letters must be endorsed by reputable medical men of Illinois.

The applicants must pass an examination in those general subjects and topics a knowledge of which is commonly and generally required of candidates for the degree of Doctor of Medicine by reputable medical colleges in the United States.

The fee of ten dollars for an examination must be paid in advance. If not paid in person, the fee should be transmitted by postal money order, draft or check made payable to the Secretary of the State Board of Health. No responsibility will be assumed for fees transmitted in any other manner.

The fee of five dollars for a certificate can be paid in advance, or when the applicant is notified that a Certificate will be issued.

Persons desiring to take an examination, should file their applications with the Secretary as early as possible, so as to enable

the Board to determine as far as practicable the number to arrange for. It is preferred that the affidavit and letters of recommendation be submitted in due form to the Secretary at Springfield before the examination.

TIME AND CHARACTER OF EXAMINATION.

Examinations will be held quarterly in Chicago, at the Great Northern Hotel, in January, April, July and October, or, in exceptional instances, in the office of the Board at Springfield.

At the present time the examination comprises the following subjects: Anatomy, Chemistry, Gynecology, Hygiene, Materia Medica and Therapeutics, Medical Jurisprudence, Obstetrics, Pathology and Bacteriology, Practice of Medicine, Physiology, Surgery. RESOLUTIONS CONCERNING THE GOOD STANDING OF MEDICAL COLLEGES.

ADOPTED JULY 11, 1899.

Resolved, That the phrase "medical college or institution in good standing" in the first paragraph of Section 2, of the Act to Regulate the Practice of Medicine in the State of Illinois, in force July 1, 1899, is hereby defined to include only legally organized, properly conducted medical institutions, having a sufficient and competent corps of instructors and ample facilities for teaching, dissections, ambulatory and hospital clinics, which conform to the requirements relative to the preliminary education of matriculates, the course and period of study, the number, character and length of lecture terms, the duration of attendance on hospital and clinical instruction, which obtain in the majority of medical colleges in the United States.

Resolved, That the Illinois State Board of Health, will not consider in good standing after January 1, 1900, any medical institution which does not require of all students (except graduates of reputable colleges of Arts and Sciences, or of reputable colleges of Dentistry, Pharmacy or Veterinary Medicine, to whom one year's advanced standing may be granted) as a condition of graduation, an

Resolved, That no medical college issuing a catalogue or announcement in which are contained misrepresentations respecting its teaching, clinical or hospital facilities, its faculty or its courses of study, or false representations as to the number of students matriculated or in attendance, will be regarded as in good standing.

SUMMARY OF THE LAWS AND REGULATIONS GOVERNING
THE PRACTICE OF MEDICINE IN THE STATES
AND TERRITORIES OF THE UNION.

ALABAMA.

The Board of Censors of the Medical Association of the State of Alabama and the Boards of Censors of the several county medical societies who are in affiliation with the said Medical Association of the State of Alabama, are the authorized Boards of Medical Examiners.

An examination is required of all persons desiring to practice medicine in this state. An examination may be taken before any of the County Boards or the State Board. County Boards can examine only those who hold diplomas from reputable schools. Graduates and non-graduates in medicine may be examined by the State Board. Examination by a County Board must be reviewed and reported upon by the State Board. As a rule the examination is in writing and comprises ten different branches.

Dr. W. H. Sanders, Montgomery, is the chairman of the State Board of Medical Examiners.

ALASKA.

There is no law regulating the practice of medicine in this territory. Itinerant physicians, in accordance with the act of June 6, 1900, pay a license of \$50.00 per annum.

ARIZONA.

A person desiring to practice medicine in this territory must present to the Territorial Board of Medical Examiners a diploma regularly issued by a medical college properly and lawfully organized, and pass an examination before the Board in nine different branches.

Dr. Wm. Duffield, Phoenix, is Secretary of the Board.

ARKANSAS.

A graduate of some reputable college of medicine and surgery that requires not less than two courses of lectures, each course in a

different year, as an essential for graduation, can obtain permission to practice by exhibiting his diploma to some county clerk and having the same recorded.

Non-graduates in medicine or physicians holding diplomas from colleges not complying with the requirements of the law, can obtain a certificate after an examination before a County Board of Medical Examiners. The County Court of each county appoints a Board in and for the said county.

CALIFORNIA.

In order to procure a certificate entitling to practice in this state, the applicant must present to the State Board of Medical Examiners a diploma issued by some legally chartered medical school, the requirements of which school shall have been at the time of granting such diploma, in no particular less than those prescribed by the Association of American Medical Colleges for that year; or he must produce satisfactory evidence of having possessed such diploma, or a license from some legally constituted institution which grants medical and surgical licenses only upon actual examination, or satisfactory evidence of having possessed such license. The applicant must also be personally examined by the Board as to his qualifications to practice medicine and surgery in the usual branches of medicine. The Board is empowered by law to license without examination persons holding certificates from states having equal requirements, providing the licenses of California are recognized without examination in said states.

Dr. C. C. Wadsworth, 1104 Van Ness Avenue, San Francisco, is the Secretary of the Board.

COLORADO.

The laws regulating medical practice in Colorado are essentially as follows:

Those physicians holding diplomas from recognized reputable medical schools are registered upon the presentation of diplomas or other sufficient evidence of graduation. All applicants graduating after January 1, 1900, must have had four full courses—in four separate years—in medical colleges having adopted the standard of requirements equal to those of the A. A. M. C. Other physicians and undergraduates applying for licenses are examined. Only residents of Colorado are registered.

Dr. S. D. Van Meter, Denver, is Secretary of the State Board of Medical Examiners.

CONNECTICUT.

In this state a license will be issued to any person of good character, who has received a diploma from some legally incorporated medical college, and who passes an examination before any one of the three committees appointed by the State Board of Health on the nomination of the Connecticut Medical Society, the Connecticut Homeopathic Medical Society and the Connecticut Eclectic Medical Association. Each committee frames its questions and conducts its examinations and files both questions and answers with the State Board of Health, which issues certificates of registration. The examinations are in the several branches of medicine.

Dr. C. A. Lindsley, New Haven, is Secretary of the State Board of Health, to whom applications for blank forms and for examination should be made.

DELAWARE.

The right to practice in this state is conferred only by a certificate of the Medical Council. All applicants must present diplomas from legally incorporated medical colleges. Graduates after April, 1895, must have attended three courses of lectures in different years. Applicants furthermore, must pass a written examination before the Board of Medical Examiners representing the President and Fellows of the Medical Society of Delaware, or that representing the Homeopathic Society of Delaware State and Peninsula.

Reciprocity of license is permitted by the law with other states having a standard of requirements substantially the same as that required by the Medical Council of Delaware.

Dr. P. W. Tomlinson, Wilmington, is Secretary of the Medical Council, to whom applications for examinations should be made.

DISTRICT OF COLUMBIA.

Only graduates in medicine holding diplomas acceptable to the Board of Medical Supervisors of the District are eligible to the examination. Diplomas issued prior to July 1, 1898, shall be accompanied by satisfactory evidence that the applicant has studied medicine not less than three years prior to the issuing thereof, and four years if issued subsequent to June 30, 1898. Diplomas issued on two courses of lectures cannot be accepted without evidence of at least one year's additional study prior to the issue of a diploma. All examinations are in the usual branches of medicine. Licenses may be issued without examination to physicians holding certificates from the examining boards of other states, providing the said Boards grant equal rights and recognition to the licentiates

of the Board of Medical Supervisors of the District of Columbia. Examinations are conducted by three Boards of Medical Examiners, representing the Regular, Homeopathic and Eclectic Schools. All examinations are subject to review by the Board of Medical Supervisors.

All applications for a license must be made to the Secretary of the Board of Medical Supervisors, Dr. Wm. C. Woodward, Washington, D. C.

FLORIDA.

The law of this state requires that an applicant for a certificate shall pass an examination before the Board of Examiners of a Judicial District, a State Homeopathic Board or a State Eclectic Board. The applicant to a District Board must present a diploma from a recognized school. To the Homeopathic Board a diploma from a school recognized by the American Institute. To the Eclectic Board a certificate of graduation from an Eclectic school. There is no uniform standard for examinations. Each Board establishes its own standard.

At present the Board examines applicants upon twelve branches, as follows: anatomy, physiology, materia medica and therapeutics, obstetrics, gynecology, chemistry and toxicology, diagnosis, theory and practice, histology and pathology.

Dr. R. L. Nourse, Hailey, is the Secretary of the State Board of Medical Examiners.

SOUTH CAROLINA.

It is the duty of the State Board of Medical Examiners to examine all applicants for examination, who hold diplomas from any medical colleges or schools, who present certificates of good moral character, and to grant to each successful applicant a certificate entitling him to practice medicine in the state. The Board

requires an examination in the following subjects: anatomy, general and regional, physiology and histology, chemistry, toxicology, practical urinalysis, materia medica and therapeutics, surgery and surgical pathology, practice and diseases of children, obstetrics and gynecology. The medical law of the state was amended on the 15th of February, 1901, so as to exclude from the provisions of the Act of 1893 all graduates holding diplomas issued by "any college of established reputation in the state of South Carolina which has a four years' course of instruction and a standard of not less than seventy-five per cent on examination, who make satisfactory evidence of their standing to the State Board of Medical Examiners." In accordance with the opinion of the Attorney General of the state, such graduates are not only exempt from examination, but are not required to make application for license to the Board, or pay a fee. This amendment, however, seemingly does not refer to a graduate who has taken a four years' course, but refers to and is descriptive of a college which has a four years' course of instruction. To use the words of the Attorney General: "the limitation applies directly to the institution. When a college conforms to these qualifications and issues a diploma to a graduate, whether he has attended three years or five or six years, the mere granting of a diploma and the evidence of his standing having been made to the State Board of Examiners, the graduate is exempt from the provisions of section 970, vol. 1, of the Revised Statutes of 1893. * * * It must be left to the college to decide whether in a given instance a young man is capable of understanding or completing a four years' course within less than four years of actual time occupied in the pursuit of study within the walls of the institution."

Dr. S. C. Baker, Sumter, is Secretary of the Board.

SOUTH DAKOTA.

Any person who is a graduate of a lawful medical college who has attended three full courses of medical lectures of six months each, no two full courses within the same year, may receive a license from the State Board of Health. The requirement of the three courses of lectures does not apply to those who graduated prior to 1893. The Board of Health is constituted a Board of Public Examiners for the purpose of examining and licensing physicians, but seemingly no provisions for examinations are made.

Dr. A. H. Rogers, Canton, is Secretary of the Board.

TENNESSEE.

The law requires an examination in seven or more branches of medicine, of all applicants excepting graduates of any reput-

Dr. T. J. Happel, Trenton, is Secretary of the Board.

TEXAS.

Any person over twenty-one years of age, of good moral character, is eligible to the examination by any one of the three Board of Medical Examiners for the state of Texas, representing the three schools of medicine. Each applicant shall be examined in the following branches: anatomy, physiology, chemistry, materia medica, therapeutics, histology, pathology, practice of medicine, surgery, including diseases of the eye, ear, nose and throat; obstetrics, gynecology, hygiene, and medical jurisprudence. Applications for license must be made to the President or Secretary of the Board before which the applicant desires to appear. The law provides for reciprocal relations with other states having equal requirements.

Downs, Galveston, Secretary of the Board of Eclectic Medical Examiners for the state of Texas.

VERMONT.

The regulation of the practice of medicine in this state is under the control of the Board of Censors of the state medical societies. Each examining board apparently fixes its own standards. Section 4631 provides that each Board shall issue certificates without fee to physicians who present to each examining board a diploma from a medical college and who by examination satisfy the Board that they are entitled to practice. Section 4632 reads as follows: "A person not a resident of the state who has not received a diploma from a chartered medical

college shall obtain a certificate from a Board of Censors in the state before he shall be permitted to practice the medical art therein."

Dr. C. W. Strobill, Rutland, is Secretary of the Board representing the Vermont State Medical Society. E. B. Whittaker, Barre, is Secretary of the Homeopathic Board, and Dr. P. L. Templeton, Montpelier, is Secretary of the Eclectic Board.

VIRGINIA.

The State Board of Medical Examiners of this state is required to admit to examination any person who presents a diploma from some medical college chartered by the state in which the same is situated. The following resolution was adopted by the Board at its meeting held at Staunton, June 24-27, 1901: "Resolved, That the Medical Examining Board of Virginia will in the future decline to recognize the diploma of any college which does not conform to the requirements of the Association of Medical Colleges." When an applicant shall have made an examination satisfactory as to his proficiency, a certificate will be issued him. At present time the examination comprises the following subjects: hygiene and medical jurisprudence, anatomy, physiology, chemistry, histology, pathology and bacteriology, materia medica and therapeutics, obstetrics and gynecology, practice and surgery.

"The Board shall have in their discretion, authority to accept in lieu of examination of an applicant, a diploma or other satisfactory evidence of the graduation of the applicant in some medical college chartered by the state or territory in which the same is situated and a certificate from the Examining Board of any other state or territory in which the same is situated and a certificate from the examining board of any other state or territory of the United States or the District of Columbia, showing that such applicant has passed a satisfactory examination as to his proficiency and obtained a license from said Board to practice medicine and surgery in said state, territory or district, provided, that any person who was examined by the State Examining Board prior to Jan. 1, 1900, and whose fee for such examination was duly paid but who failed to pass said examination, shall have the right and privilege of taking the examination before the State Board notwithstanding the provisions of this act."

Dr. R. S. Martin, Stuart, is Secretary of the Board.

All persons commencing the practice of medicine or surgery shall apply to the State Board of Medical Examiners and submit to an examination in the various branches of medicine and surgery and present to said board a diploma from a reputable medical college that requires at least four courses of not less than six months each before graduation; no two of said courses to be taken within any one twelve months, and that shall after the year 1901 require for admission thereto an elementary education equivalent to that necessary for entry to the junior class of an accredited high school of this state, including one year's course in Latin, and for graduation from said medical college at least four courses of not less than seven months each; no two of said courses to be taken within any one twelve months, provided, however, that any student who is now matriculated in any medical college of Wisconsin requires four courses of six months each as a prerequisite of graduation, no two courses to be taken within one twelve months, shall on presentation of his diploma from such medical college and on payment of the fees specified in this act be admitted to practice without further examination by the State Board of Medical Examiners.

Under Chapter 306, law 1901, the Board is empowered to exempt from examination any practitioner of medicine holding a certificate from any other state board imposing requirements equal to those established by the Board who may on presentation of the same with a diploma, be admitted to practice in this state without an examination, at the discretion of the Board, on the payment of the fee. In construing this section of the law, the Attorney General of the State has advised the State Board of Medical Examiners, that a practitioner who holds a certificate from

a state board which now imposes requirements equal to those imposed by the Statutes of Wisconsin, may be licensed without examination, even though at the time the person received a certificate, the requirements in his state were not the same as those now exacted in Wisconsin.

Dr. Filip A. Forsbeck, Milwaukee, is Secretary of the State Board of Medical Examiners.

WYOMING.

A graduate in medicine desiring to practice in this state shall be issued a certificate by the State Board of Medical Examiners, providing he presents a diploma issued by a medical college of recognized merit, said college being a member of the American Association of Medical Colleges, the Homeopathic Institute or the National Eclectic Medical Association, or any college of similar standing in foreign countries. OSTEOPATHY.

Osteopathy (OSTEON—a bone, PATHOS, suffering), “a system, method or science of treating diseases of the human body” is legalized and its practice is regulated by legislative enactments in the following states: California, Connecticut, Indiana, Iowa, Kansas, Michigan, Missouri, Montana, Nebraska, North Dakota, Ohio, South Dakota, Tennessee, Vermont and Wisconsin. In Massachusetts and Texas osteopaths are exempted from the provisions of the medical law of the state.

A bill legalizing the practice of osteopathy passed the Legislature of Illinois in 1897, but was vetoed by Governor John R. Tanner. A similar measure passed the Senate of Illinois in 1899, but failed of passage in the House of Representatives. Under the provisions of the medical law of Illinois enacted in 1899, the State Board of Health is empowered to examine and license persons who desire to practice any certain “system or science of treating human ailments, who do not use medicines internally or externally and who do not practice operative surgery,” the said examination to “be of a character sufficiently strict to test their qualifications as practitioners.” Any person is eligible to this examination, which embraces the following subjects, in each of which ten questions are asked: anatomy, chemistry, histology and pathology, hygiene, physiology and symptomatology. An applicant receiving an average rating of 75 per cent in this examination is issued a certificate by the State Board of Health on the subjoined blank form.

 Attest.....M. D., Secretary.

All persons thus licensed are prohibited by the statutes of Illinois from calling or advertising themselves as physicians or doctors.

In addition to the states mentioned, the practice of osteopathy is seemingly permitted in the following, although technically prohibited by law: Alabama, Arizona, Arkansas, Colorado, Delaware, District of Columbia, Florida, Georgia, Idaho, Kentucky, Louisiana, Maryland, Minnesota, Mississippi, New Jersey, New Mexico, New York, North Carolina, Oklahoma, Oregon, Pennsylvania, Rhode Island, Utah, Virginia, Washington, West Virginia and Wyoming. The laws of Maine and New Hampshire permit the practice of magnetic healing, mind cure, massage, christian science or other methods of treatment in which no drugs are used. Prosecutions have been attempted in Arkansas, Georgia, Kentucky, Louisiana, Minnesota, Mississippi, New Mexico, Pennsylvania, Utah and possibly others, with varying results. In but one instance in these states has the higher court rendered a decision on the practice of osteopathy, namely, in Kentucky. Says the court in this case (*Nelson v. State Board of Health*, 57 S. W. R. 501), "appellant is in no proper sense a physician or surgeon. He does not practice medicine. He is rather on the plane of a trained nurse. If by kneading and manipulating the body he can give relief from suffering, we see no reason why he should not be paid for his labor, as other laborers. Services in kneading and manipulating the body are no more the practice of medicine than services in bathing a patient to allay his fever or the inflammation of a wound. Appellant may not prescribe or administer medicine or perform surgery but so long as he confines himself to osteopathy, kneading and manipulating the body without the use of medicine or surgical appliances, he violates no law and appellee (the State Board of Health) should not molest him."

Court decisions favorable to the contention that the practice similar to that of osteopaths is *not* the practice of medicine as defined by the statutes, have been rendered in the following states: Kentucky, (*Nelson v. State Board of Health*, supra), New York (*Smith v. Lane*, 24 Hun., 632), Ohio (*State v. Lifferring*, 55 N. W. R., 168), and Rhode Island (*State v. Myloid*, 40 A. R. 753). Since the filing of the opinion in the case of *State v. Lifferring*, the Legislature of the state of Ohio has legalized the practice in the state.

Contrary decisions have been rendered by the Supreme Courts of Nebraska (*State v. Buswell*, 58 N. W. R. 758, and *Little v. State*, 84 N. W. R. 248), but Senate Bill 102, approved 12:23 a. m. April 1, 1901, decrees that "the system, method or science of treating disease of the human body commonly known as osteopathy, is hereby declared not to be the practice of medicine, surgery, or obstetrics within the meaning of sections seventeen (17) and eighteen (18) article one (1) of chapter fifty-five (55) Compiled Statutes of Nebraska, 1899, and entitled 'Medicine,'"—and of Illi-

nois (*People v. Gordon*, Dock. 2095, Ag. 62, opinion filed February 21, 1902.) The Supreme Judicial Court of Massachusetts in March, 1835, (*Hewitt v. Charier*, 16 Pick 353) held that a person who practiced bonesetting and reducing sprains, swellings and contractions of the sinews, by *friction* and *fomentation*, but no other branch of the healing art, practiced surgery within the meaning of the statutes.

The State Board of Health of Illinois has long held that persons who held themselves out as competent to treat disease and practiced what is known as "osteopathy" and "magnetic healing" were practicing medicine as defined by the statutes. Many suits have been instituted by the Board against persons who were deemed violators of the law. In the majority of instances, the judgment of the lower courts was in favor of the defendants. This was notably so in the case of the so-called "magnetic healers" who it is alleged, used both mental and physical agencies in their treatment. The higher courts, however, with one exception, have sustained the ruling of the Board, and the question has been finally settled by the Supreme Court of Illinois in a clear and concise statement of the law governing the case, in which it is held that "services in kneading and manipulating the body" (See *Nelson v. State*) are "more the practice of medicine than services in bathing a patient to allay his fever or the inflammation of a wound." The Court (*People v. Gordon*, Dock 2095, Ag. 62, Feb. 21, 1902), says: "merely giving massage treatment or bathing a patient is very different from advertising one's business or calling to be that of a doctor or physician, and as such administering osteopathic treatment. The one properly falls within the profession of a trained nurse, while the other does not." In this case the judgment of the Appellate Court, in the case of the *People v. Gordon*, 96 Ill. App., 456, was reversed.

The judgment of the higher courts referred to will be found in the following: *Eastman v. People*, 71 Ill. App., 236; *W. D. Jones v. People*, 84 Ill. App., 453; *People v. B. E. Jones*, 92 Ill. App., 447, and *People v. Gordon*, 96 Ill. App., 456, the latter, which was reversed by the Supreme Court, holding that "a person who assumes the title of 'doctor,' calls his business 'magnetic healing,' and advertises to cure many diseases by magnetic healing or vital magnetism, but does not prescribe medicines * * * is not engaged in the practice of medicine as contemplated by the Medical Practice Act of 1899." In the case of *Eastman v. People* (opinion filed June 16, 1897), the principles governing in the case are so clearly set forth that it has been deemed proper to publish the following extract from this opinion, which was held by the Supreme Court of Illinois four years later to be the correct interpretation of the law.

"This is an appeal from a judgment for one hundred dollars as a penalty for practicing medicine without a license, under Par. 10, Ch. 91 R. S. It appears that the appellant was engaged in the

practice of 'The Profession of Osteopathy,' as it is termed in the briefs; that he had an office where he received patients and that he visited patients at their homes; that he advertised his system and skill therein by publications in the newspapers and that he professed ability to understand and treat human ailments intelligently and successfully.

"So far as shown his treatment consisted wholly of rubbing and manipulating the affected parts with his hands and fingers, and by flexing and moving the limbs of the patient in various ways.

"It is insisted on his behalf that because he used no medicine or instruments he is not amenable to the statute.

"Par. 14 of Ch. 91 declares that 'Any person shall be regarded as practicing medicine within the meaning of this act who shall treat, operate on or prescribe for any physical ailment of another.'

"It is argued on behalf of appellant that this provision must receive reasonable interpretation and that to 'treat' implies the use of medicine or drugs of some sort. This is not so necessarily. Many of the minor operations are effected without the use of instruments, by mere pressure, extension and flexing.

"This of course implies some knowledge of anatomy and some skill. So many forms of diseases are treated by attention to the diet, habits and mode of life, without resorting to medical remedies.

"It is said by counsel that if the statute reaches this case it must include treatment by Turkish baths, massage and the like.

"We think not. The evidence shows that appellant held himself out as competent to treat and cure numerous diseases, such as all forms of fevers, cerebro spinal meningitis, kidney diseases, measles, paralysis and many others, including in fact a large proportion of the ailments common to mankind. He represented himself as a graduate of the new school of 'osteopathy' and held himself out as qualified to examine and treat all who might seek his aid.

"Herein he differs from those who give Turkish baths, massage and the like.

"He professes to be able to diagnose and advise in respect to a long list of diseases and to furnish discriminating and efficient treatment to those who come and try him, and while he may rely wholly upon manipulation, flexing, rubbing, extension, &c., yet he professes to have skill and judgment in these methods, so as properly to adapt the treatment of each case, giving it what is appropriate, in amount, and with repetition at such times and to such extent as may be dictated by his knowledge and experience. By his skill in the use of his peculiar remedies or methods he claims to be competent to relieve and cure various ailments, and therefore he invites patronage. * * * We are of the opinion that the proofs bring appellant within the act and that he is liable to the penalty imposed thereby for practicing medicine without a license."

OFFICIAL LIST
OF
Legally Qualified Physicians.

MARCH, 1902.

PREFACE.

In the compilation of this Official List of Legally Qualified Physicians of the State of Illinois, the greatest care has been exercised by the State Board of Health. Since the publication of the last Official Register of the Board a card index has been made of the 20,000 persons who have received certificates since 1877, comprising data taken directly from the application blank of each licentiate, and every effort has been made to obtain the correct addresses of the physicians practicing in Illinois. From this card index the present Official List has been prepared.

The difficulties encountered by the Board in an attempt to keep an accurate record of the addresses of the several thousand living licentiates, will be realized when it is stated that not one physician in a hundred takes occasion to notify the Board of his change of address, that many fail to register their certificates with the County Clerk, while many others, registering in every county into which their practice extends, neglect to note their permanent address. Notwithstanding these disadvantages, the Board is able to present to the physicians of the state a list of physicians which may be considered trustworthy.

In this Official List are included the names of all physicians who have received certificates from the State Board of Health during the period from July 12, 1877, to March 1, 1902, excepting those known to be deceased and those whose certificates have been revoked. The postoffice is omitted whenever the physician is located in another state or his address is unknown. It is very probable that some physicians whose addresses are not given are practicing in the state of Illinois, but few errors in this connection will occur except possibly in the city of Chicago. As the Board seldom receives advices of the deaths of licentiates who have removed to other states, it is exceedingly likely that many whose names are given herein are deceased.

Physicians noting errors or omissions are requested to notify the Secretary of the State Board of Health.
